

Patentes

- [ES2259541](#). Elemento para la determinación de nitrato
- [WO2006119986](#). Metal oxide membranes with a gas-selective compounds.
- [WO2007003674](#). Instrumento portátil y método para la medida de la concentración de gases.
- [WO2007003674](#). Gas concentration measurement instrument and method
- [WO2009109679](#). Use of virgin olive oil polyphenolic compounds in cancer treatment.
- [WO2009118438](#). Improved biodiesel production method
- [WO2010043748](#). Biosynthesis of derivatives of monacolin J
- [WO2012085303](#). Polymer compounds having immobilizing properties.
- [WO2012076735](#). Deuterated 5-trideuteromethyl-6-methyl-2-thioxo-2,3-dihydropyridin -4(1h)-one compounds and method for the preparation thereof.
- [WO2012076736](#). Deuterated phenacyl and derivatives, method for the preparation thereof and uses thereof.
- [ES2472343](#). 1,3-dihidro-6-(3')-trideuteroetil-2-tioxo-pirimidin-4-ona y derivados, síntesis y usos de estos tireostaticos marcados con deuterio.
- [WO2019145356](#). Methods and pharmaceutical compositions for the treatment of fgfr3-related chondrodysplasias.
- [WO2019149975](#). Method for obtaining functionalised polymer particles.
- [WO2020224960](#). Hydrophilic nonwoven nanofibers membrane for promoting bone regeneration.
